2828 Allouez Avenue Bellevue, WI 54311 (920)468-5225

Parcel Number: _____

Permit Number: _____

Permits Requested: (check all that apply)

- Demolition/Razing Well Abandonment Plumbing Permit if utilities supplied to building

Building Address _____

Subdivision _____ Lot _____

Owner _____ Telephone _____

Address _____

Demolition/Razing Contractor _____

Address _____ Telephone _____

Describe work to be done _____

Size _____ Sq. ft. _____ Height _____

Plumbing Contractor _____ License No. _____

Address _____ Telephone _____

Setbacks from property lines: Front _____ Back _____ Right _____ Left _____

All utilities shall be disconnected and the services terminated. Water and sewer laterals must be disconnected at the main and be properly capped by a licensed plumber. Owner/permit holder shall call for inspection and approved before these terminations may be covered. **In no case shall demolition/razing start until all utilities have been properly terminated and signed verification submitted to Village.**

Wells shall be abandoned as per State Statutes and Village of Bellevue Ordinance. Owner/permit holder shall call for inspections showing removal of foreign material, filling of well and removal of well pits. Upon completion, a copy of DNR Form 330-5B Well Abandonment shall be submitted to the Village.

The undersigned hereby applies for a permit to do the work herein described, and hereby agrees that such work will be done in accordance with State and Federal regulations and Village of Bellevue ordinances.

Applicant Name (print) _____

Applicant Signature _____ Date _____

Approved by _____ Date _____

Conditions of approval: _____

Project Address _____

We, the undersigned, certify that the water, sewer, electricity, gas and telephone connections in the building or structure about to be demolished have been removed, sealed or plugged. The permittee for the sewer and water disconnections is responsible for disconnection and proper abandonment in accordance with Village requirements.

The following shall be completed and signed prior to the release of the demolition permit. It is the responsibility of the owner/Demolition contractor to obtain the required signatures.

Water and Sewer Connection	_____	(inspector)	date _____
Water Meter	_____	(utility)	date _____
Gas Connection	_____	(WPS)	date _____
Electric Connection	_____	(WPS)	date _____
Telephone Connection	_____	(AT & T)	date _____
Cable Connection	_____	(Time Warner Cable)	date _____

NOTICE: Asbestos Abatement

Demolition projects are subject to Federal and State of Wisconsin regulations concerning asbestos containing materials. The regulations require a pre-demolition inspection by a State Certified Asbestos Inspector, and filing a notice of Demolition (Form 4500-113) with the Wisconsin Department of Natural Resources. For more information, contact the Wisconsin Department of Natural Resources at (920) 492-5800.

View the Wisconsin Department of Natural Resources Pre-Demolition Environmental Checklist (DNR Publication WA-651-03) to view a list of other environmental and regulatory issues that should be considered prior to demolition. This publication can be found at:

Dnr.wi.gov/topic/Sectors/documents/ConstructionChecklist.pdf

Be sure to contact Digger’s Hotline prior to digging. The number is 811 or (800) 242-8511.

Date paid/Receipt No. _____ Permit fee _____

In the event that the building is deemed a public nuisance due to a fire or other natural disaster) the Fire Department has the authority to order the building razed immediately when a safety hazard exists.
