

Project Update

June 8, 2017

2017 Townhall Road Construction

Lime Kiln Road – Jubilee Drive

Project information: Multi-Phase Construction involving sanitary sewer main and lateral lining/replacement, new sidewalk, street tree installation, and street pavement reconditioning.

Timeline: Construction April 24, 2017 - August 2017

Road Closures, Vehicles & Traffic: While under construction, the road will be closed to through traffic. Travel through the area will be possible, but delays are likely due to construction equipment using the area. Be attentive of construction workers directing traffic through the construction zone. Take alternate routes.

Resident Access: Local resident access to and from your home will be maintained as much as possible during construction. If your driveway needs to be closed while construction is taking place, you will be notified by the Contractor. Please contact the project inspector if you require special access needs. **If concrete work is completed within your driveway, the concrete will require 7 – 10 days to cure before you can travel over it. You will receive a door hanger if your driveway will be affected, closer to the actual removal.**

Communication: It is the intent of the Village to minimize the amount of disruption and inconvenience to the community during any construction process. If during normal work hours you feel something went unnoticed, or needs attention, please contact **Joel VanLanen**. As project inspector, Cedar Corp is most familiar with the daily operations of construction and can resolve many issues quickly.

If something happens after normal work hours that you feel requires immediate attention, please contact the Village Office, and arrangements will be made to resolve the issue.

As always, in an emergency, please call 911.

Please keep an eye on your door hangers for construction updates regarding paving, garbage pick-up, and traffic changes. Additional information is available on the Village website, www.villageofbellevue.org.

Project Updates: Construction updates will be posted on the Village website bi-weekly, and when major changes will be occurring. If at any time you would like additional information, please call Joe at (920) 468-5225 or Thad at (920) 785-7302.

Please leave the door hanger in place during the Project for future updates.

Two Week Outlook:

Roadway and Sidewalk Construction will take place from Nicole Ann Circle to the Bridge. The work includes concrete sidewalk/driveways and curb & gutter, miscellaneous storm sewer repairs, pavement removal, roadway excavation and base course installation.

Excavation for the sanitary sewer and lateral replacement will start on the west side of the Bridge with a second crew.
